

What parents say:

We are very happy with the centre and the way our daughter's needs are met. The centre consistently exceeds our expectations.

Great centre. The carers take exceptional care of my child.

Friendly staff and very accommodating. My daughter is happy there and that matters most to me.

The location of the centre was a major influence with choice, the staff and amenities are of a good standard, we like the centre being so multicultural as it offers benefits and opportunities for our child to interact and experience a range of different social skills.

It's run very well, thanks to the staff and teachers. Couldn't have hoped or wanted a better one. It's met and filled my expectations.
