☆ LEARNING THROUGH PLAY ☆

early childhood management services
making a positive difference

ABOUT us

- ☹️ JMK has always nurtured a strong community atmosphere facilitated by parent involvement in various kinder activities.
- ☹️ We are a community-based kindergarten with the aim of providing a learning environment which enables every child to develop their potential in all areas of development – cognitively, physically, emotionally and socially, whilst maintaining a warm, supportive and caring environment.

The task of encouraging and facilitating a child to reach new levels and unfold their potential occurs every day in small ways with many rewards.

we strive to

- ☹️ Provide play orientated adult supported programs that meet the needs of individual children, their families & community.
- ☹️ Make a positive difference in the lives of children and their families.
- ☹️ Nurture each child's unique qualities and potential.
- ☹️ Understand that children need to be respected, valued, feel happy and have a high level of self esteem.
- ☹️ Encourage each child's independence.

OUR PROGRAM

- ☹️ We provide a stimulating, safe and caring environment where all children feel welcome.
- ☹️ Our program is play based and provides a range of concrete, hands on experiences for children.
- ☹️ Children are encouraged to be active learners where they can learn about themselves and the world around them.
- ☹️ Parents and family members are encouraged to participate in the program – we believe family involvement is important in encouraging children to develop a strong sense of community.
