PRESCHOOL
ASSOCIATION

• where learning is fun •

early childhood management services
making a positive difference

We believe that

- ★ Children should be actively involved in their own learning, through hands-on experiences.
- ★ Children are much more receptive to learning when experiences encourage their own exploration and involve their own interests. Through this play based programming children's innate eagerness, curiosity and desire to learn is fostered.
- ★ The environment should be nurturing, safe, supportive and stimulating, where children are encouraged to reach their full potential.
- ★ Every child is a unique individual who has his or hers own needs and interests. It is our responsibility as teachers to cater for the social, emotional, physical and Intellectual development of each individual and the group as a whole.

Get down to your child's level and see what they see as they experience kindergarten. It is such a rewarding experience and can never be repeated.

- Sharlene (committee member)

We strive to

- ★ respect and accept each child and family.
- ★ help foster independent, self confident, inquisitive learners who are not afraid to try out new ideas and think their own thoughts.
- ★ foster all developmental areas.
- ★ provide activities and learning experiences that are play based and planned around children's individual developmental level and interests.

Parental involvement

- ★ Parents and families are an integral part of the child's kindergarten year.
- ★ Parents are welcome to choose their level of involvement in their child's kindergarten year. There is opportunity to take part formally (such as on the committee responsible for the day to day running of the kindergarten) or informally (through parent helper rosters, special occasion days, working bees, home interactions etc.)

It's fun at kinder, you have all the stuff out for me to play with. Tyler (age 4)

Playing with my friends is the best thing about kinder. Zara (age 4)

I love scooters and bikes. Mackenzie (age 4)
