

**Yammer:**

**A place to meet and chat online**

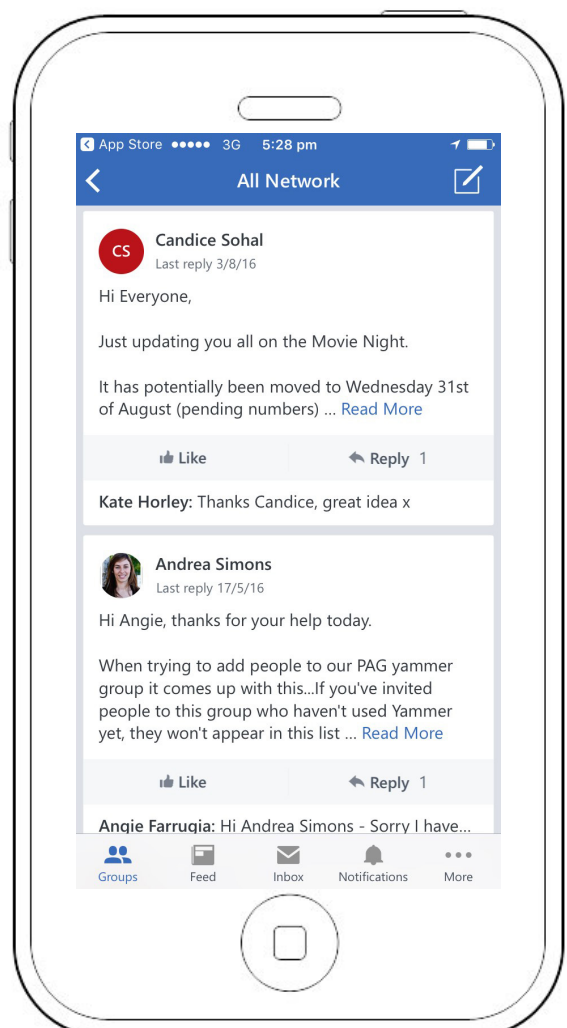

ECMS can set up a Yammer group for each Parent Activity Group to enable parents to connect at any time. Yammer is a private online social networking platform owned by Microsoft. Like Facebook, Yammer users have their own profile and can contribute to shared discussions. Users can control the information they share with other members.

Once logged in, PAG members have access to their local PAG group as well as the 'All network' area where you can post questions and ideas to all ECMS PAG members.

Within Yammer you will find resources and details on the acceptable use policy. There is also space for your PAG to save documents and notes for easy, ongoing access and so that information is accessible by future PAG members.

Yammer is available online free. You can also download a free mobile app from the Appstore or Google Play.

To be set up with a Yammer group or to join one, please speak to your PAG Convener, Educator or Area Manager. Alternatively, you can contact [community@ecms.org.au](mailto:community@ecms.org.au)

ECMS is a leading not-for-profit provider of early learning and care services
