

Quality Area 5: Interactions with Children Procedure Early Childhood Education

Interactions with Children Procedure

Procedures

- Work in partnership with each child's parent/ guardian to exchange information about children's strengths and to develop strategies to support children to acquire skills and knowledge to help them develop trusting relationships with others.
- Use written observations of each child to help understand the child's interests and needs, to further strengthen relationships with each child. This documentation will also inform and guide discussions with children and their parents/guardians to support children's continued learning and development, in particular, their social and emotional growth.
- Where the Kindergarten offers rotational groups, ensure that any activities are consistent with the approved capacity of the room at all times. Eg Incursions and excursions will need to be offered twice.
- Educators will collaborate with other professionals such as Maternal & Child Health Nurse, Paediatrician, Inclusion Support Facilitator and/or the Preschool Field Officer.
- Encourage children to express themselves and their opinions.
- Enable children to undertake experiences that develop self-reliance and self-esteem.
- Display regard to the family and cultural values, age, and physical and intellectual development and abilities of each child.
- Respond sensitively to each child's temperament, communication strategies and emotional cues.
- Develop and maintain relationships with children that are responsive, respectful, and equitable and promote children's confidence, sense of security and belonging.
- Respond to children in ways that strengthen their sense of agency and self-efficacy.
- Support each child to build and maintain sensitive and responsive relationships with other children and adults.
- Create a learning environment where children are encouraged to explore, imagine, create and engage in learning.
- Be thoughtful, deliberate and purposeful in their interactions with children, moving flexibly between child initiated/directed play and learning; guided play and learning; and adult led learning.

- Support children’s acquisition of skills and knowledge for life and learning by encouraging children to express themselves and their opinions and by scaffolding children’s learning.
- Support each child to work with, learn from and help others through collaborative learning opportunities.
- Create a community of care, supporting each child to manage their own behaviour, respond appropriately to the behaviour of others and communicate effectively to resolve conflicts.
- Provide children with clear expectations about their behaviour and, when necessary, set clear and appropriate limits that are sensitive to children’s perspectives.
- Provide positive guidance and encouragement toward acceptable behaviour
- Provide meaningful feedback and acknowledgement to children.
- Work in partnership with each child’s parent/ guardian to exchange information about children’s strengths and to develop strategies to support children to acquire skills and knowledge to help them develop trusting relationships with others.
- Use written observations of each child to help understand the child’s interests and needs, to further strengthen relationships with each child. This documentation will also inform and guide discussions with children and their parents/guardians to support children’s continued learning and development, in particular, their social and emotional growth.
